SUMMARY

Passionate about crafting seamless mobile experiences, I bring strong skills in Android and Flutter development, backed by real project experience and a solid understanding of Firebase, API integration, and backend systems. I am looking for an internship role where I can apply my technical expertise to build high-performance applications while learning from industry professionals and enhancing my full-stack capabilities.

SKILLS

- **Languages:** Dart, Java, Kotlin, Python, JavaScript
- **Frameworks & Tools:** Flutter, Android SDK, Firebase, Node.js, Django, ExpressJS
- **Integrations:** Firebase Auth, Firestore, Realtime DB, Push Notifications, Razorpay
- **Others:** REST APIs, Shared Preferences, SQLite, MongoDB (basic), Git & GitHub, Postman
- **Soft Skills:** Problem-Solving, Adaptability, Team Collaboration, Time Management, Attention to Detail, Continuous Learner, Communication

PROJECTS

StokWise (Android – Java + Firebase)

Inventory management app for shopkeepers to manage products and track transactions.

- Features: Add/edit stock, view analytics, search/filter, track sales
- Firebase used for authentication and real-time inventory updates
- Github: <https://github.com/Pratham1803/StockWise>

Food Express (Android – Kotlin + Firebase)

Food delivery platform with separate modules for customers and shop owners (admin).

- Customers can browse menus and place orders; admins can accept and manage them
- Firebase Realtime Database & Auth for dynamic data flow and secure access

Bill Generator App (Android – Kotlin + Firebase)

Billing system for grocery shops to auto-generate invoices and manage stock.

- Generates PDF bills that can be shared via WhatsApp, Gmail, etc.
- Firebase used for storing items and purchase history
- Github: <https://github.com/Pratham1803/Profarma>

Shopping List App (Flutter – Firebase + Node.js)

Cross-platform app to manage personal or shared shopping lists.

- Real-time sync of items across users using Firebase
- Integrated custom Node.js backend with REST APIs for extended features
- Github: https://github.com/Pratham1803/FlutterPractice/tree/main/shopping_list

Full-Stack Todo App (Flutter + Node.js + MongoDB)

A full-stack task management app with authentication and CRUD operations.

- Flutter frontend with REST API integration
- Node.js backend handles user login (JWT), task storage, and database communication
- Github: <https://github.com/Pratham1803/ToDoNest>

EDUCATIONAL

MCA – Master of Computer Applications

CGPA: 8.41 / 10

CHARUSAT University | 2024 – Present

BCA – Bachelor of Computer Applications

CHARUSAT University | 2021 – 2024

CGPA: 9.41 / 10

HSC - Commerce

St.Xavier's High School, Khambhat (GSHEB) | 2020 - 2021

Percentage: 83.26 %

SSC - General

St.Xavier's High School, Khambhat (GSHEB) | 2018 - 2019

Percentage: 80.81 %
